Subject line: Budget and increase financial wellbeing with the Swag app

Body:

Hi [First Name],

We wanted to send across some helpful information on the new employment superapp, Swag. The Money tab in particular has features to help boost your financial wellbeing and fight inflation. Because we use Employment Hero, you'll be able to experience these new perks. When you login to Swag and click the Money Tab, you will see areas where you can set up or view your Swag Spend account, view your Hero Dollars and manage InstaPay and Pay Split. Here's an overview of these key features:

Swag Spend Account: You can set up a Swag Visa Debit and Spend account in the Swag app, which allows you to unlock exclusive Cashback Offers through the Swag app. There are no setup, ATM or monthly fees involved.

Stash Accounts: Stash Accounts gives you the opportunity to open up to nine sub-accounts to transfer and separate funds from your main Swag Spend account. Users can name and set targets to help budget and track expenses.

Pay Split: You can choose how much money you would like deposited into your Swag Spend account each time you get paid.

InstaPay: InstaPay is an [Earned Wage Access](#) product that gives you early access to your earned wages before payday. For a \$3-\$4 fee per transaction you can request up to 50% of your earned wages, which is capped at a maximum of \$250 per week. Because it's money you've already earned, there's no interest, credit or late fees involved.

Hero Dollars: Treat yourself in the Swag store with Hero Dollars, our reward and recognition tool. Hero Dollars can be treated like real cash and you can purchase everyday items and gift cards at discounted prices. You can also redeem your Hero Dollars with your Swag Visa Debit card.

Super: Swag gives you the ability to conveniently access your Superannuation information whenever you want. You can import and save your superannuation details via the Money tab to keep your super details in one place.

If you have any questions about the Money tab in Swag, you can visit the [Swag Help Centre](#) which addresses key feature-related questions. Please visit the [Swag website](#) to learn more about Swag Money and how it can help you get the most out of each pay.

Feature updates and bug fixes are released regularly, so make sure you continue to update the Swag app via Google Play or App Store. If you have any questions, please do let me know.
